Personal Profile

I have a keen interest in computer programming and have recently gained a 2:1 degree in computer science. Whilst undertaking my degree I used several languages, the main ones being C#, C++ and JavaScript. I also used CSS and HTML to design a website. I understand the importance of using code repositories when working within a team, in the past I have used various repositories such as Git and Subversion.

I am keen, enthusiastic and willing to learn new skills to help me secure employment. I am eager to work as a computer programmer to continue developing the skills I have gained at university. I am punctual, well-mannered and enjoy working on my own or within a team. I am fluent in Welsh and English and have a full driving license.

Education & Qualifications

Sept 2016 – June 2019 University of Hull
Bachelor of Science with Honours in Computer Science 2:1

Sept 2009 – July 2016 Ysgol Syr Hugh Owen, Caernarfon
A-Levels: Mathematics, History and Welsh Baccalaureate

8 GCSEs: Mathematics, English Language, English Literature, Additional Science, Welsh, Welsh Literature, History, Geography and ICT

Interests & Hobbies

One of my main interests is to keep up to date with the latest technology using sources such as YouTube and TechRadar etc.

When I was in university, I took a keen interest in the Unity game engine and participated in the Hull Unity User Group which helped me to understand the concept on how to build simple games.

I enjoy playing action and adventure video games and going to the cinema mainly to watch Marvel and DC films.

To relax I enjoy going out and socialising with my friends and use Facebook and Discord to keep in touch with my friends from university.
